the most effective study guide for the critical care nursing certification exam now with all new artwork critical care nursing certification review is a comprehensive single

source review that covers everything you need to know to excel on the examination administered by the American Association of Critical Care Nurses (AACN). Unlike dull, dry outline style reviews, this score-boosting resource is presented in short, easy-to-read chapters that are similar to what you would hear at a well-planned lecture following the CCRN blueprint. Coverage of each subject is weighted to reflect its level of importance on the actual exam. Ten practice exams, mostly centered around body systems, help you identify weak areas and sharpen your test-taking skills. Chapters cover all the systems and topics you need to master, including cardiovascular, pulmonary, endocrine, immunology, and hematology; neurology; gastroenterology; renal; multi-organ problems; professionalism; ethics; and synergy/behavior.

This updated seventh edition will equip psychiatric and mental health nurses with the essential clinical knowledge and skills needed to practice with confidence, spanning the continuum of care. This text will help nurses excel in a range of settings, improve client and family education skills, and build the self-awareness a nurse needs as a member of the interdisciplinary care team. This edition includes a new chapter on forensic nursing, new content on spirituality, updated psychopharmacological information, current DSM-IV-TR diagnostic criteria, and evidence-based practice boxes throughout the text. A bound-in CD-ROM includes clinical simulations for major depression and schizophrenia, psychotropic drug monographs, over 300 NCLEX-style questions, and movie viewing guides.

Vols for 1956-58 include papers presented at program meetings.
